A Natural Way to Profitability

Dear Manney,

Canadian Bio-Systems has unique IT requirements. Being a smaller company competing against divisions of Fortune 500 companies, we needed our technology to match that of the "big guys". PC Corp provided these solutions for us.

After a thorough needs evaluation, PC Corp came in and matched our budget exactly and provided solutions for any headaches our organization was experiencing. They beat the competing quotes both on service rates and hardware and were a pleasure to deal with on both the sales and service side.

People in the office look forward to PC Corp's service day as our rep is friendly and quickly resolves any issues our users may have. Any hardware requirements are a phone call away and I'm confident of PC Corp's competitive pricing.

It's been a great relationship to date and we look forward the future.

Sincerely yours,
